1 Executive Summary

1.1 Purpose of Journey Mapping

This Customer Journey Mapping Report evaluates the complete customer experience associated with the Oyster Herbals Digital Commerce Platform. The objective is to identify customer touchpoints, understand user motivations, uncover friction points, and highlight opportunities to improve customer satisfaction throughout the customer lifecycle.

1.2 Research Scope

The analysis covers customer interactions beginning with brand discovery and continuing through product evaluation, WhatsApp-based ordering, delivery, review submission, and repeat purchases. The report aligns with the previously defined customer personas: Ramesh Sharma, Priya Patel, and Arjun Mehta.

1.3 Key Findings

- Transparent pricing significantly improves customer trust.
- WhatsApp-based ordering reduces purchase friction.
- Verified reviews strongly influence first-time buyers.
- Prefilled order messages reduce communication errors.
- Mobile accessibility plays a critical role throughout the customer journey.

2 Customer Journey Overview

2.1 Customer Lifecycle Overview

The Oyster Herbals customer lifecycle consists of four major stages: Awareness, Consideration, Purchase, and Post-Purchase. Each stage represents a different interaction between the customer and the business, requiring specific touchpoints, information, and support mechanisms.

2.2 Journey Objectives

- Understand how customers discover Oyster Herbals products.
- Evaluate how customers compare and assess product offerings.
- Analyze the WhatsApp-based purchasing experience.
- Assess post-purchase engagement and retention opportunities.

2.3 Journey Stages

1. Awareness
2. Consideration
3. Purchase
4. Post-Purchase

Each stage contributes to customer satisfaction, trust development, and long-term loyalty.

3 Journey Mapping Methodology

3.1 Mapping Approach

The customer journey was mapped by examining interactions across physical and digital channels. The methodology focuses on customer goals, behaviors, communication preferences, and operational touchpoints at every stage of the purchasing process.

3.2 Customer Segments Considered

- Chronic Care Refiller (Ramesh Sharma)
- Health Conscious Seeker (Priya Patel)
- Modern Wellness Enthusiast (Arjun Mehta)

These personas represent the primary audience groups targeted by the Oyster Herbals Digital Commerce Platform.

3.3 Evaluation Criteria

The customer journey was evaluated using the following criteria:

- Experience Quality
- Communication Effectiveness
- Friction Points
- Trust Development
- Platform Alignment

These criteria help identify opportunities to improve customer satisfaction and operational efficiency.

4 Awareness Stage

4.1 Awareness Stage Journey Map

lightgray Dimension	Ramesh Sharma	Priya Patel	Arjun Mehta
Customer Goals	Learn how to re-order regular remedies without visiting the clinic.	Find authentic doctor-formulated products for family wellness.	Discover natural solutions for stress, energy, and lifestyle wellness.

Customer Actions	Asks clinic staff about online ordering options.	Searches online for Ayurvedic wellness products and clinics.	Views recommendations through social media and online content.
Touchpoints	Clinic prescription sheets, flyers, physician recommendations.	Search engines, wellness blogs, mobile browsing.	Social media posts, online recommendations, website links.
Customer Pain Points	No central source for product information and pricing.	Difficulty verifying clinical credibility of wellness brands.	Slow-loading websites and poor mobile experiences.
Opportunities	Promote website access during clinic visits.	Highlight physician credentials and clinic expertise.	Optimize mobile responsiveness and page performance.

4.2 Awareness Stage Insights

The awareness stage is heavily influenced by trust and visibility. Customers must first become aware of Oyster Herbals before they can evaluate its products. Establishing a strong digital presence and clearly communicating clinical expertise are critical success factors at this stage.

5 Consideration Stage

5.1 Consideration Stage Journey Map

lightgray Dimension	Ramesh Sharma	Priya Patel	Arjun Mehta
Customer Goals	Verify product pricing and availability.	Evaluate ingredients, benefits, and reviews.	Assess quality, ratings, and product presentation.
Customer Actions	Browses the catalog using a smartphone.	Studies product descriptions and customer reviews.	Reviews images, ratings, and wellness benefits.
Touchpoints	Product catalog pages.	Product detail pages and review sections.	Mobile catalog interface and product ratings.
Customer Pain Points	Small text and poor readability on mobile devices.	Unverified reviews and limited product information.	Slow image loading and poor mobile performance.

Opportunities	Improve readability and accessibility.	Display verified reviewer badges and trust indicators.	Optimize images and improve loading speed.
---------------	--	--	--

5.2 Consideration Stage Insights

Customers actively compare products, validate trust signals, and evaluate whether Oyster Herbs can meet their wellness needs. Product transparency, verified reviews, and a high-quality browsing experience play a major role in influencing purchase decisions.

6 Purchase Stage

6.1 Purchase Stage Journey Map

lightgray Dimension	Ramesh Sharma	Priya Patel	Arjun Mehta
Customer Goals	Order products quickly and confirm delivery arrangements.	Purchase multiple products with minimal effort.	Complete the purchase process immediately.
Customer Actions	Uses the Buy Now option to initiate WhatsApp ordering.	Reviews products and coordinates delivery through WhatsApp.	Sends the prefilled WhatsApp order request instantly.
Touchpoints	Buy Now button, WhatsApp chat, clinic staff communication.	Product pages, WhatsApp conversation, billing information.	WhatsApp ordering flow and digital payment applications.
Customer Pain Points	Uncertainty about the WhatsApp ordering process.	Delayed responses from clinic staff.	Repeatedly entering delivery details manually.
Opportunities	Provide clear order instructions and confirmations.	Create response templates for faster communication.	Support address saving and simplified order management.

6.2 Purchase Stage Insights

The purchase stage is where customer intent converts into business value. The WhatsApp ordering process reduces friction compared to traditional e-commerce checkouts; however, response speed and communication quality remain important factors influencing customer satisfaction.

7 Post-Purchase Stage

7.1 Post-Purchase Stage Journey Map

lightgray Dimension	Ramesh Sharma	Priya Patel	Arjun Mehta
Customer Goals	Receive products on time and reorder easily.	Follow product instructions and provide feedback.	Receive delivery updates and leave ratings quickly.
Customer Actions	Receives the package and reviews instructions.	Submits product reviews and ratings.	Provides quick ratings through mobile devices.
Touchpoints	Product packaging, reorder reminders, WhatsApp communication.	User account, review forms, customer support.	Delivery notifications and review pages.
Customer Pain Points	Difficulty reading small labels and instructions.	Complicated review submission processes.	Lack of reminders encouraging feedback.
Opportunities	Provide larger printed instructions and reminders.	Simplify the review submission experience.	Use automated review reminder messages.

7.2 Post-Purchase Stage Insights

Post-purchase engagement significantly influences customer retention and loyalty. Clear communication, easy feedback mechanisms, and convenient reordering processes help transform first-time buyers into long-term customers.

8 Customer Experience Analysis

8.1 Experience Performance Analysis

lightgray Journey Stage	Primary Value Driver	Customer Frustration	Trust Factor	Loyalty Driver
Awareness	Easy access to product information.	Limited online visibility.	Physician credentials and clinic reputation.	Consistent brand messaging.
Consideration	Transparent product details and reviews.	Slow mobile experiences.	Verified customer reviews.	Educational product information.

Purchase	Simple WhatsApp ordering process.	Response delays and communication gaps.	Secure payment options.	Quick order confirmation.
Post-Purchase	Reliable delivery and support.	Complicated feedback processes.	Authentic products and accurate information.	Easy reorder pathways.

8.2 Positive Experience Drivers

- Direct communication through WhatsApp.
- Transparent pricing and product information.
- Verified customer reviews.
- Clinic-backed credibility and trust.
- Mobile-friendly browsing experience.

8.3 Customer Frustrations

- Delayed response times during busy clinic hours.
- Limited automation for repetitive customer requests.
- Mobile usability challenges for older customers.
- Lack of streamlined review and feedback processes.

8.4 Trust Factors

- Physician-backed formulations.
- Consistent product information.
- Secure communication channels.
- Verified customer testimonials.

9 Improvement Opportunities

9.1 Strategic Improvement Plan

Time-line	Improvement Area	Action Plan	Expected Impact	Priority
Short-Term	WhatsApp Automation	Implement automated welcome messages and business-hour responses.	Improves customer confidence and reduces response uncertainty.	Critical

Short-Term	Mobile Experience	Improve font sizing, contrast, and button accessibility.	Enhances usability for all customer segments.	High
Mid-Term	Review Experience	Create a simplified review and rating workflow.	Increases customer participation and social proof.	High
Mid-Term	Operational Templates	Provide staff with standardized communication templates.	Reduces response times and improves consistency.	High
Long-Term	Refill Reminders	Implement automated reorder notifications for repeat customers.	Improves customer retention and repeat sales.	Medium
Long-Term	Address Management	Allow customers to save delivery information securely.	Reduces effort during repeat purchases.	Medium

10 Strategic Recommendations

10.1 Customer Acquisition Improvements

- Highlight physician expertise and clinic-backed product development across all customer-facing content.
- Improve local search visibility for wellness-related queries within Uttar Pradesh and surrounding regions.
- Promote verified customer testimonials to strengthen trust among new visitors.
- Expand educational content explaining product benefits and wellness applications.

10.2 Customer Engagement Improvements

- Provide simple usage instructions and wellness guidance on product pages.
- Introduce proactive WhatsApp communication following customer inquiries.
- Encourage customer participation through review requests and feedback collection.
- Improve mobile navigation and browsing experiences.

10.3 Customer Retention Improvements

- Create streamlined reorder processes for existing customers.
- Maintain consistent communication throughout the fulfillment process.
- Offer personalized follow-up support through WhatsApp.

- Develop loyalty-focused wellness programs for repeat buyers.

10.4 Strategic Recommendations Summary

Focus Area	Recommendation	Expected Outcome	Priority
Customer Acquisition	Strengthen digital visibility and trust signals.	Higher traffic and customer conversion rates.	High
Customer Engagement	Enhance communication and educational content.	Improved customer satisfaction and engagement.	High
Customer Retention	Simplify repeat ordering and follow-up processes.	Higher customer loyalty and repeat purchases.	High
Operational Efficiency	Standardize communication and support workflows.	Reduced workload and faster response times.	Medium

11 Conclusion

11.1 Journey Insights

The customer journey analysis demonstrates that Oyster Herbals customers prioritize trust, convenience, transparency, and direct communication. The combination of a digital product catalog and WhatsApp-based ordering effectively addresses the expectations of both existing patients and new regional customers.

11.2 Customer Experience Value

A well-designed customer journey reduces friction, improves purchasing confidence, and strengthens customer relationships. By addressing key pain points throughout the lifecycle, Oyster Herbals can create a more reliable and satisfying customer experience.

11.3 Strategic Impact

The journey insights provide a clear roadmap for improving customer acquisition, engagement, and retention. By focusing on communication efficiency, mobile usability, trust-building mechanisms, and post-purchase engagement, Oyster Herbals can strengthen its market position and support sustainable business growth.
